AWAKEN THE BEASTS

Move your world

CONCEPT BEHIND
THE BEAST

Fast, strong, agile - and designed for those who crave raw power and speed. Take it to the streets and watch as it comes alive on its domain, with wind-slicing performance and precise handling of a modern sports car. The GR Supra emerges as a symbol of legendary dominance.

GR SUPRA

Supra shown in White Metallic

Actual vehicle may vary from image shown.

POWER IN ITS PUREST FORM.

Supra shown in Prominence Red

Engineered with exceptional precision,
feel the roar of power and performance
with the new GR Supra.

Prepare for the most exhilarating driving experience yet. A turbo-charged 3.0-litre in-line six-cylinder engine delivering 388 PS and a maximum torque of 500Nm at 1800-5000 rpm with an optimum weight distribution and a highly rigid frame come together to offer the performance, body and soul of a true sports car.

PERFORMANCE.

Supra shown in Prominence Red

➤ **6-speed Manual or 8-speed Automatic Transmission**

Now available in 6-speed manual transmission to heighten one's enjoyment of driving. Be one with your car and take full control.

DESIGNED TO THRILL.

Every curve of the Supra's sleek body is designed to boost its aerodynamic performance. Its double-bubble roof enables it to slip through the air while a low, wide nose exhibits powerful form.

GR SUPRA

EXTERIOR

A short wheelbase and imposing new 19" forged alloy wheels.

Blending racing aerodynamics with a modern, powerful aesthetic, the GR Supra screams driving performance like never before.

Actual vehicle may vary from image shown.

COMFORT MEETS PERFORMANCE.

The driver-focused cockpit delivers a comfortable cruising experience when you want it.

Sporty aluminium pedals across all variants.

Leather-wrapped 3-spoke steering wheel.

Actual vehicle may vary from image shown.

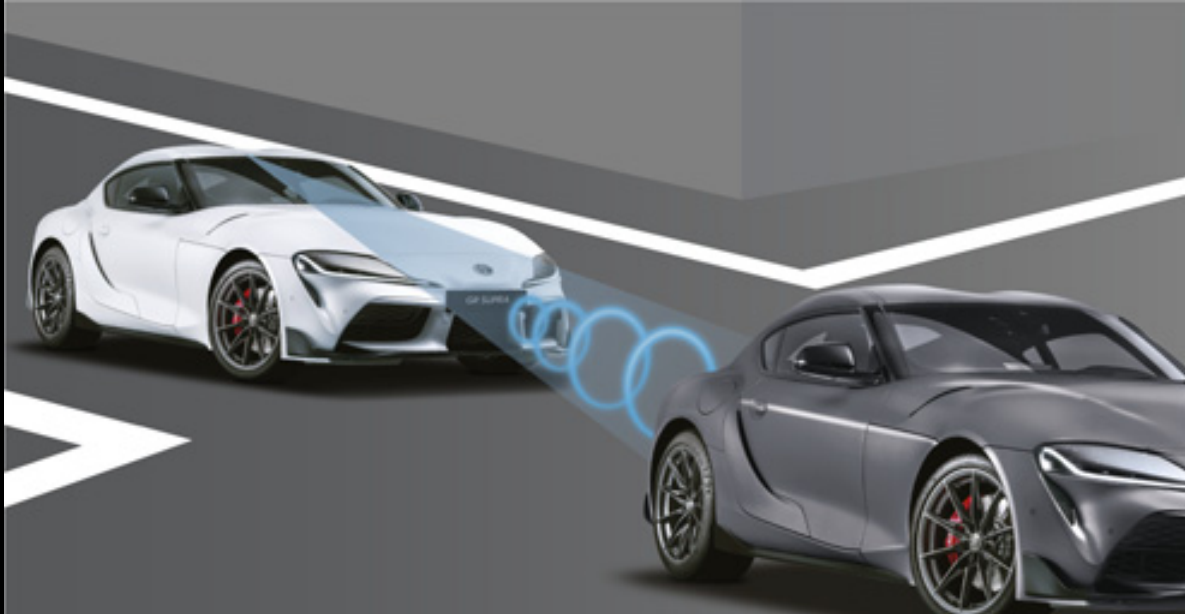

TOYOTA SUPRA SAFETY

Advanced suite of safety features that allows you to unleash your drive with a peace of mind.

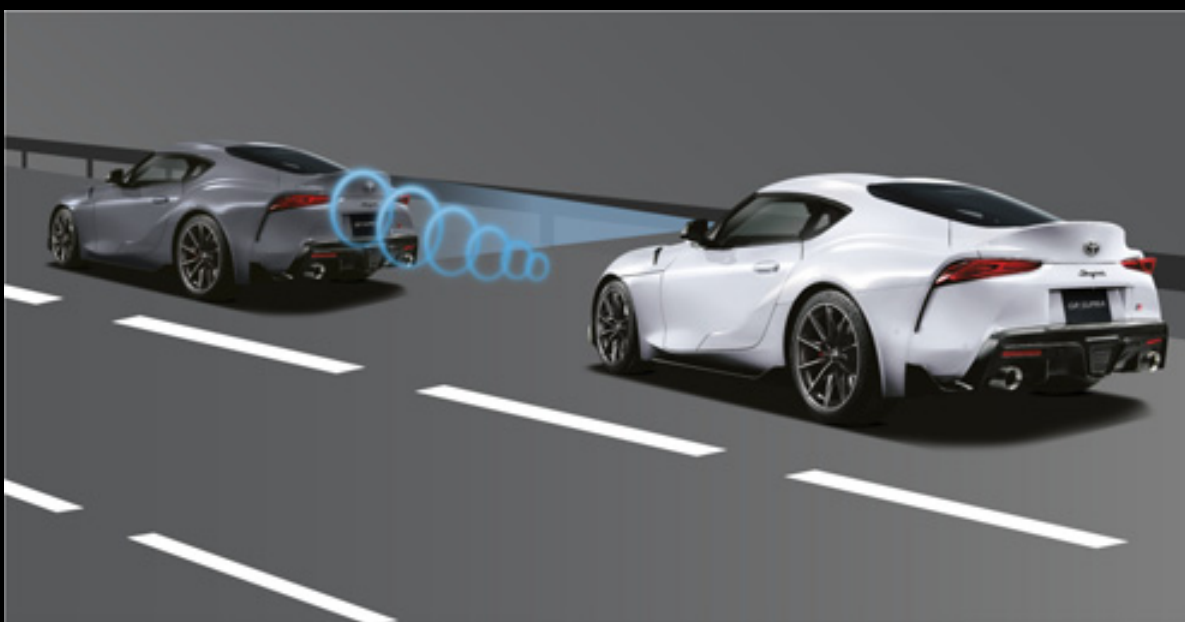

Forward Collision Warning

with Brake Function

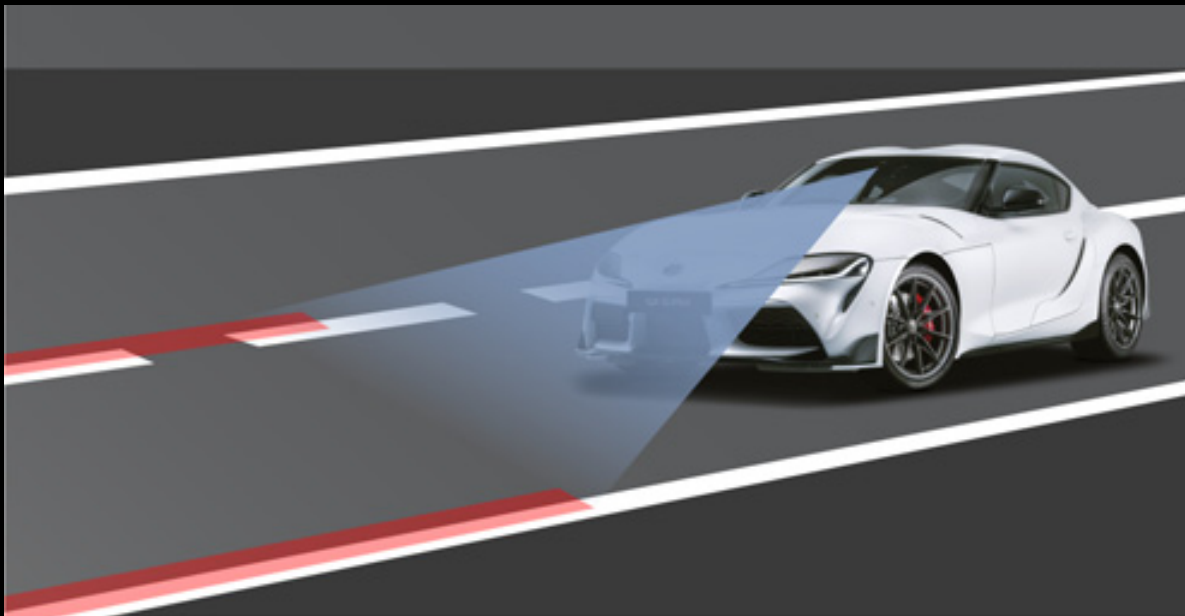

Avoids or mitigates frontal collisions by using an in-vehicle camera and radar sensor to monitor the road ahead while detecting vehicles, pedestrians and cyclists.

Adaptive Cruise Control [ACC]

Designed to adjust your speed, helping you maintain a preset distance from the car in front of you.

Lane Departure Warning [LDW]

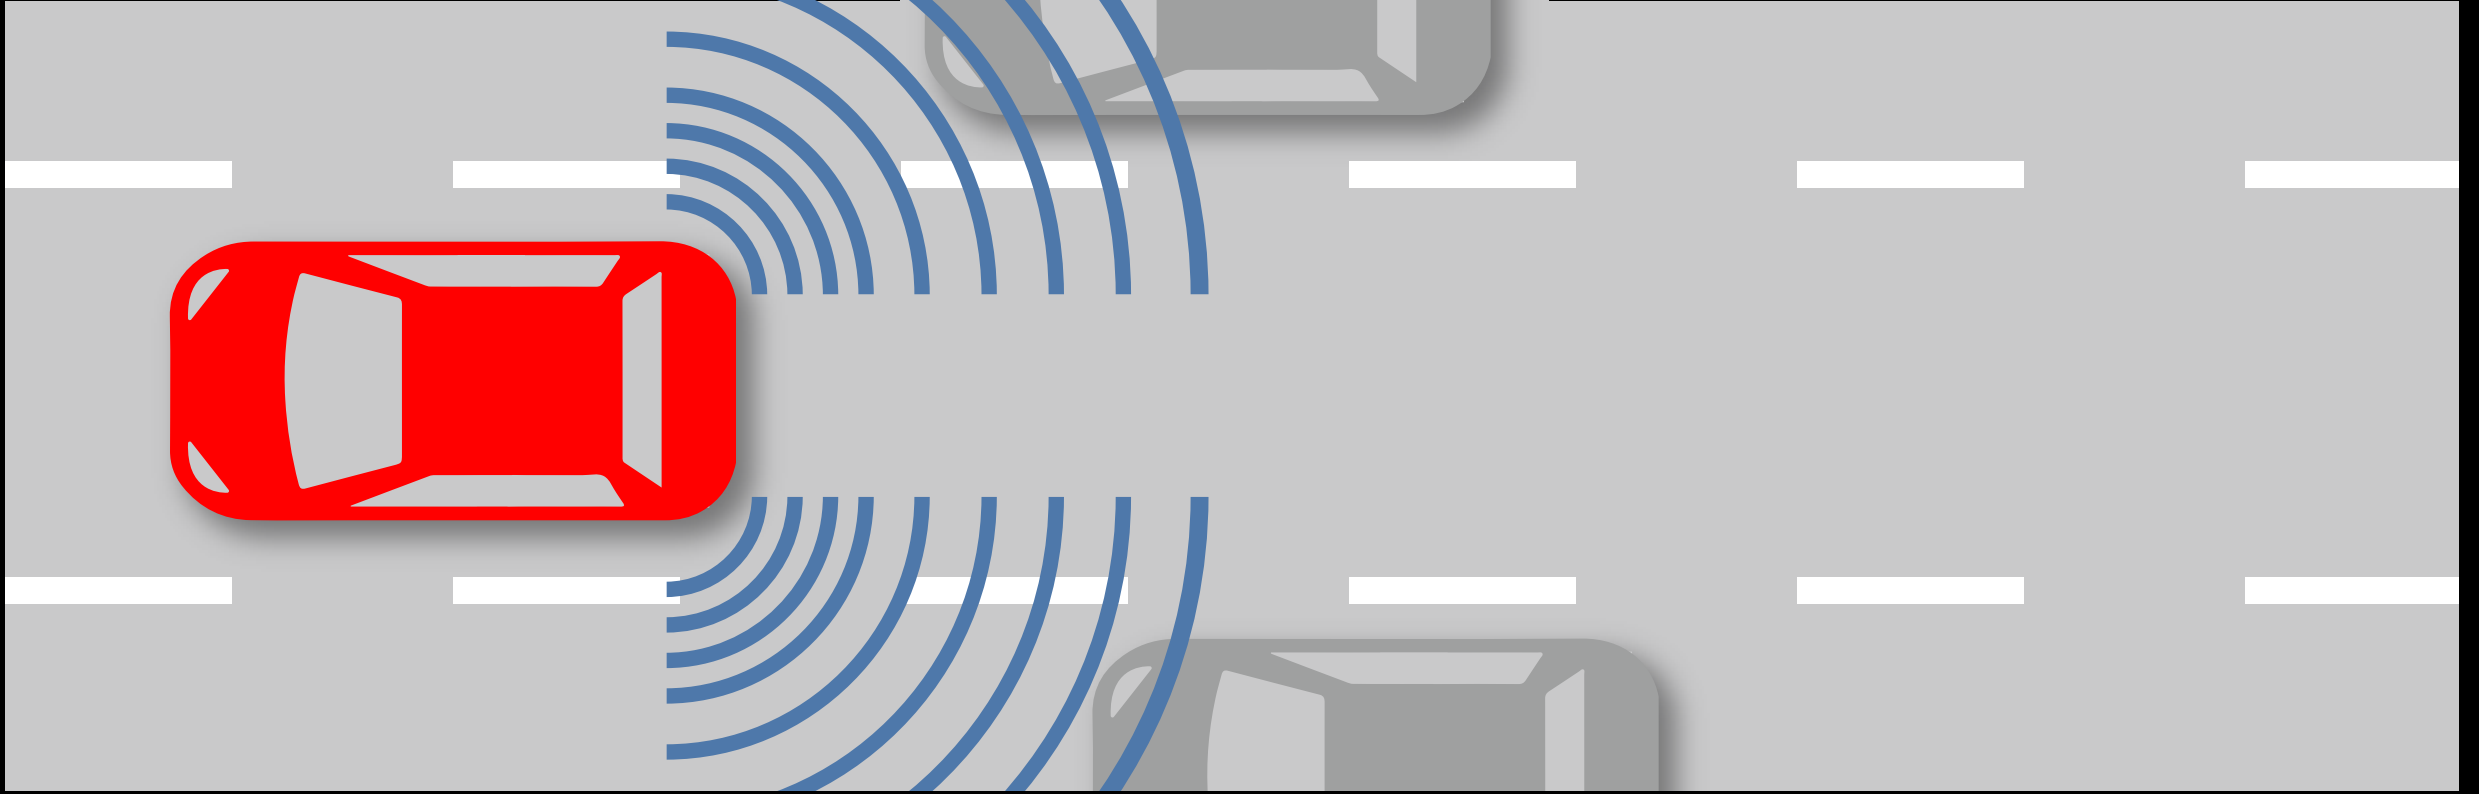

Alerts the driver when the vehicle moves away from a traffic lane without signalling.

Adaptive High-beam System [AHS]

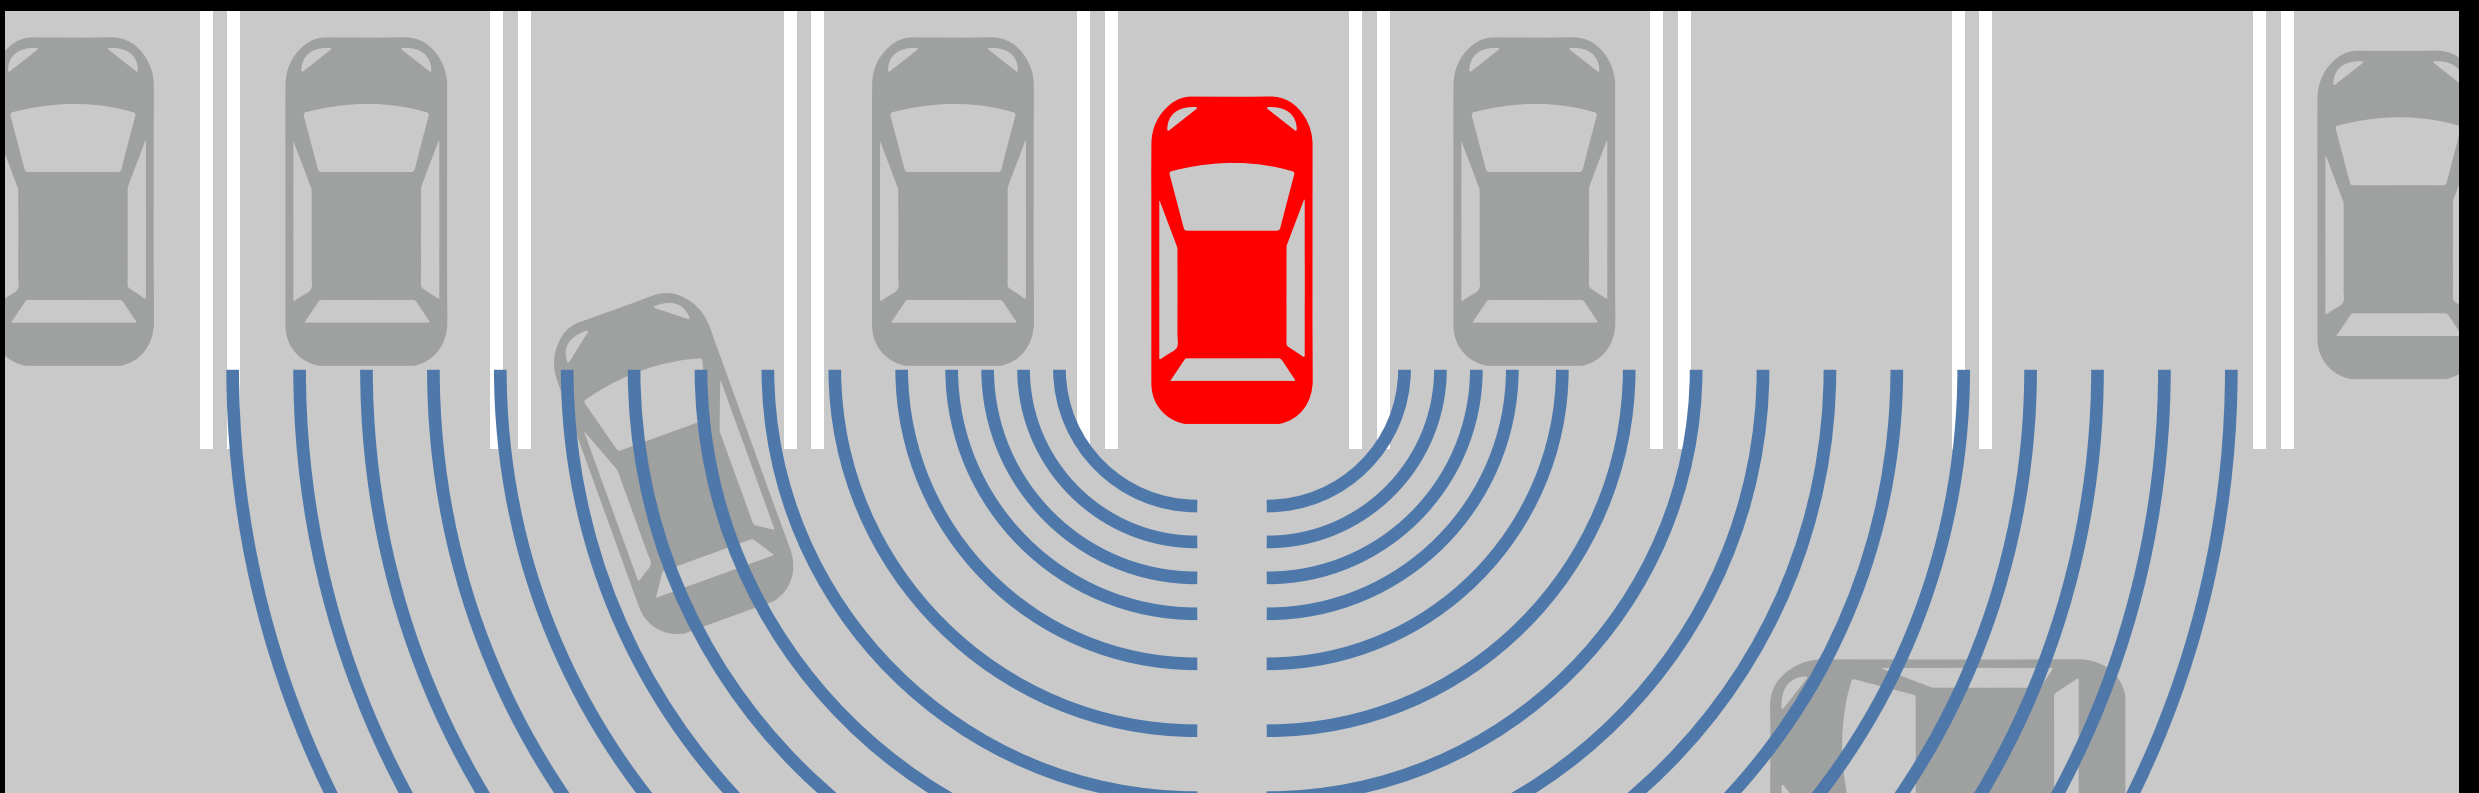

Selectively turns on the individual High-beam LEDs to ensure excellent visibility while not blinding oncoming traffic.

Blind Spot Monitor

Detects and indicates to the driver if a vehicle is present in the blind spot area.

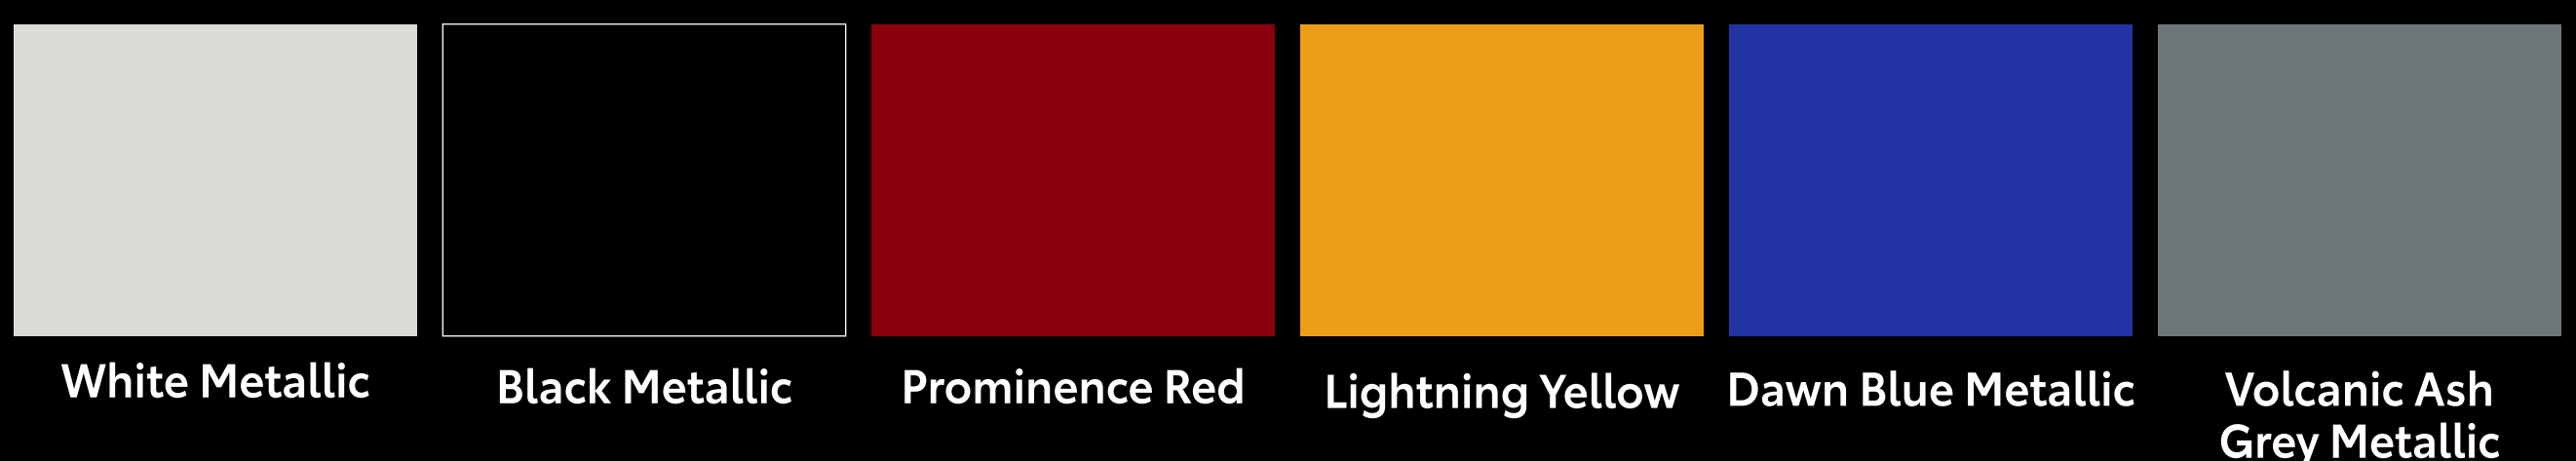

Rear Cross Traffic Alert

The system detects any vehicle close to the rear of the vehicle and notifies you using an indicator light and buzzer.
